

## Hello Cygnus and Centaurus Classes.

We hope you are keeping well and that you have enjoyed the Easter break. We miss seeing you and chatting about all the exciting things we do each day.

We have been very busy at home. It is great to look at your learning and we are pleased that so many of you have been practising your reading on Bug Club and doing learning activities on Education City.

**Our Favourite Activity:** At this time of year it is fun to plant seeds especially if they are vegetable seeds. I plan to grow runner beans, peas, tomatoes and cucumbers and I am also going to try melons! We wonder if you are planting any vegetable seeds at home. I expect you have noticed how pretty the trees are with their lovely pink and white blossom.

**Our best memories:** We have been thinking back to the autumn and spring terms and deciding what were our favourite activities. Do you remember our visit to the Christmas Tree Festival and the Peg Shepherds which you made?

We also read some super books for our English. Did you enjoy *The Man on the Moon*? We all laughed at the funny aliens and how they secretly came back to Earth in the space craft.

all come back to school?

In the spring term, we thought *The Smartest Giant* was a lovely story because he was such a kind person. Have you read any books which you would like to tell us about when we

What would your special memories be – can you think of your 3 best ones?

At home my dog, Molly, is helping me. When parcels arrive, Molly likes to open the box for me. She is not interested in what is inside the box she just wants to tear up the cardboard and make a mess!

Now keep safe, stay at home and carry on with your super learning but remember to play and have fun as well.

We cannot wait to see you again.

Mrs Jenkins and Mrs Bhattacharyya
