

I have been busy catching up on work and setting the home learning tasks. I am even doing some learning myself later this week remotely. My husband has also been working from home upstairs and we try to come together to eat our lunch in the garden when the weather is nice.

I have been making my own soup and bread for our lunch breaks. It is helping us to stay healthy. We try to go for a walk most days to keep ourselves active, whilst observing the social distancing rules.

Hello Gemini. I hope that you and your family are well. I would like to thank you and your families for following the advice to stay at home and stay safe.

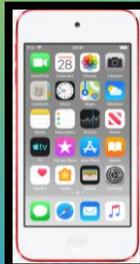

Even though you are missing school, you can learn and play and try your best in everything you do and be the best that you can be.

I hope you are all enjoying the home learning tasks and are having fun getting your family involved with them too.

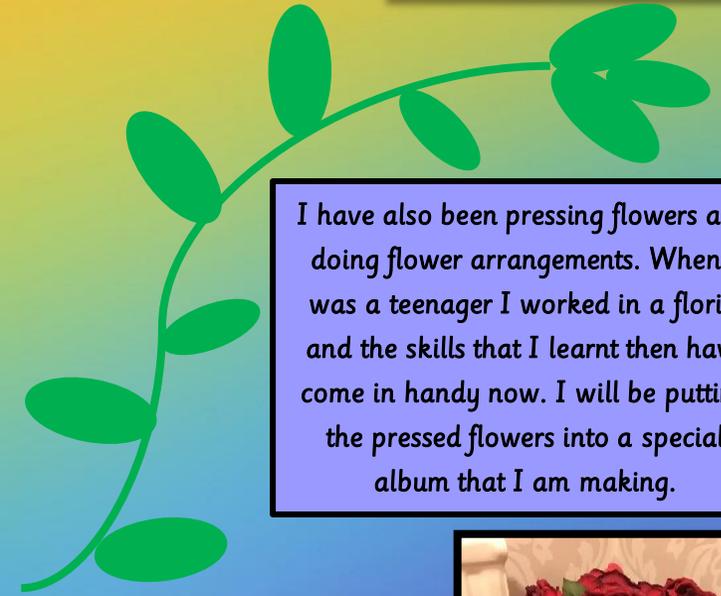

I have been very busy while I have been at home, but I thought I would share with you some of the things I have been doing when I do get some free time.

Stay positive and stay smiling.
Love Mrs Terry xxx

At the beginning of the year I decided to have a go at growing my own vegetables. My son started it off for me when we were first at home as I didn't have time. We are growing spinach, pak choi, leeks, onions, carrots, tomatoes and lettuce. We will also plant some beans and cabbage too when the time is right.

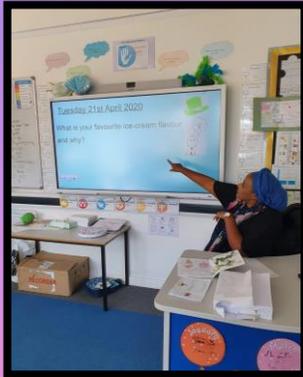

Staying in touch with my family has been really important. We have been video calling each other. I get to hear all of the new words that my granddaughter is saying. She always brings a smile to my face.

I have also been pressing flowers and doing flower arrangements. When I was a teenager I worked in a florist and the skills that I learnt then have come in handy now. I will be putting the pressed flowers into a special album that I am making.

I have been busy at work doing lots of learning with the children of the key workers. We have also had fun playing cards, collecting different plants and skipping around the school. At home I have a new hobby, gardening. I have been preparing my tubs ready to add the flowers.

My family and I have been following the guidelines by washing our hands and staying at home. We have been spending quality time together by playing games, doing craft activities and by having whole family music sessions.

Hello everyone.

We are all at home following the guidelines and spending quality time with our families. The lovely weather has enabled us to get into our gardens where spring is in full flow and to enjoy taking our daily walk in the sun, while observing the social distancing rules.

We hope that you and your families are staying safe and positive.

Love

Mrs Mohamed, Mrs Njoroge, Mrs Merchant and Mrs Ahmed,

xxxx

I have been busy at home cleaning, cooking and watching movies with my daughter. It's nice to get that quality time together. I hope you have been finding lots of exciting things to do with your family while at home too.

I have been enjoying soaking up the sun in my garden with lots of interesting books and a cup of tea! I have also been able to spend more time with my children. Here we are playing scrabble.
