

Friday 24<sup>th</sup> February 2023

Dear Parents and Carers,

We have arranged for our Year 4 children to visit the **Science Museum London on Tuesday 21<sup>st</sup> March 2023** to support our topic 'How does an electrical circuit work?'.  
**We will be leaving for this trip at 8:45 so it is paramount that the children arrive promptly so that we can be prepared to leave school together.**

The children will watch 'The Wonder Show', which is a highly interactive show carried out by the Explainers at the Science Museum to ignite the children's curiosity with exciting demonstrations. The children will also get to explore the different zones in the Wonderlab to investigate states of matter and forces. Additionally, we will be investigating electrical circuits, light and more.

On the day your child will need:

- School Uniform
- Comfortable footwear
- Water bottle
- A warm/waterproof jacket in case of rain or cold weather
- Packed lunch (unless your child has a free school meal)

We will be travelling to the Science Museum in South Kensington by tube and will be walking to Harrow & Wealdstone.

**Parents are asked to contribute £2.50 towards the cost of this educational trip via ParentPay.** This will be a fantastic opportunity for our pupils and will help to bring our topic to life. Unfortunately, failure to raise the required amount may mean cancellation of the trip.

Please make your payment by no later than Tuesday 14<sup>th</sup> March 2022.

Thank you for your continued positivity and support. If you have any queries regarding the school trip, please contact the class teachers using this email address:
